

Judge Zimmerman's conduct erodes the public's confidence in our judicial system. A judge's independence, integrity, and impartiality are paramount in making our system work. When a Judge fails to uphold the Canons of his profession he is no longer fit to serve. Judge Zimmerman should resign. The bias and the racism displayed in his comments have no place in our community and no place in our courtrooms. We must hold our judicial officers to a high standard so that everyone in our community has equal access to justice. Judge Zimmerman has shown that he cannot meet that standard and should resign.
