

# Lieser School Site Redevelopment

## VHNA Meeting 03.24.22

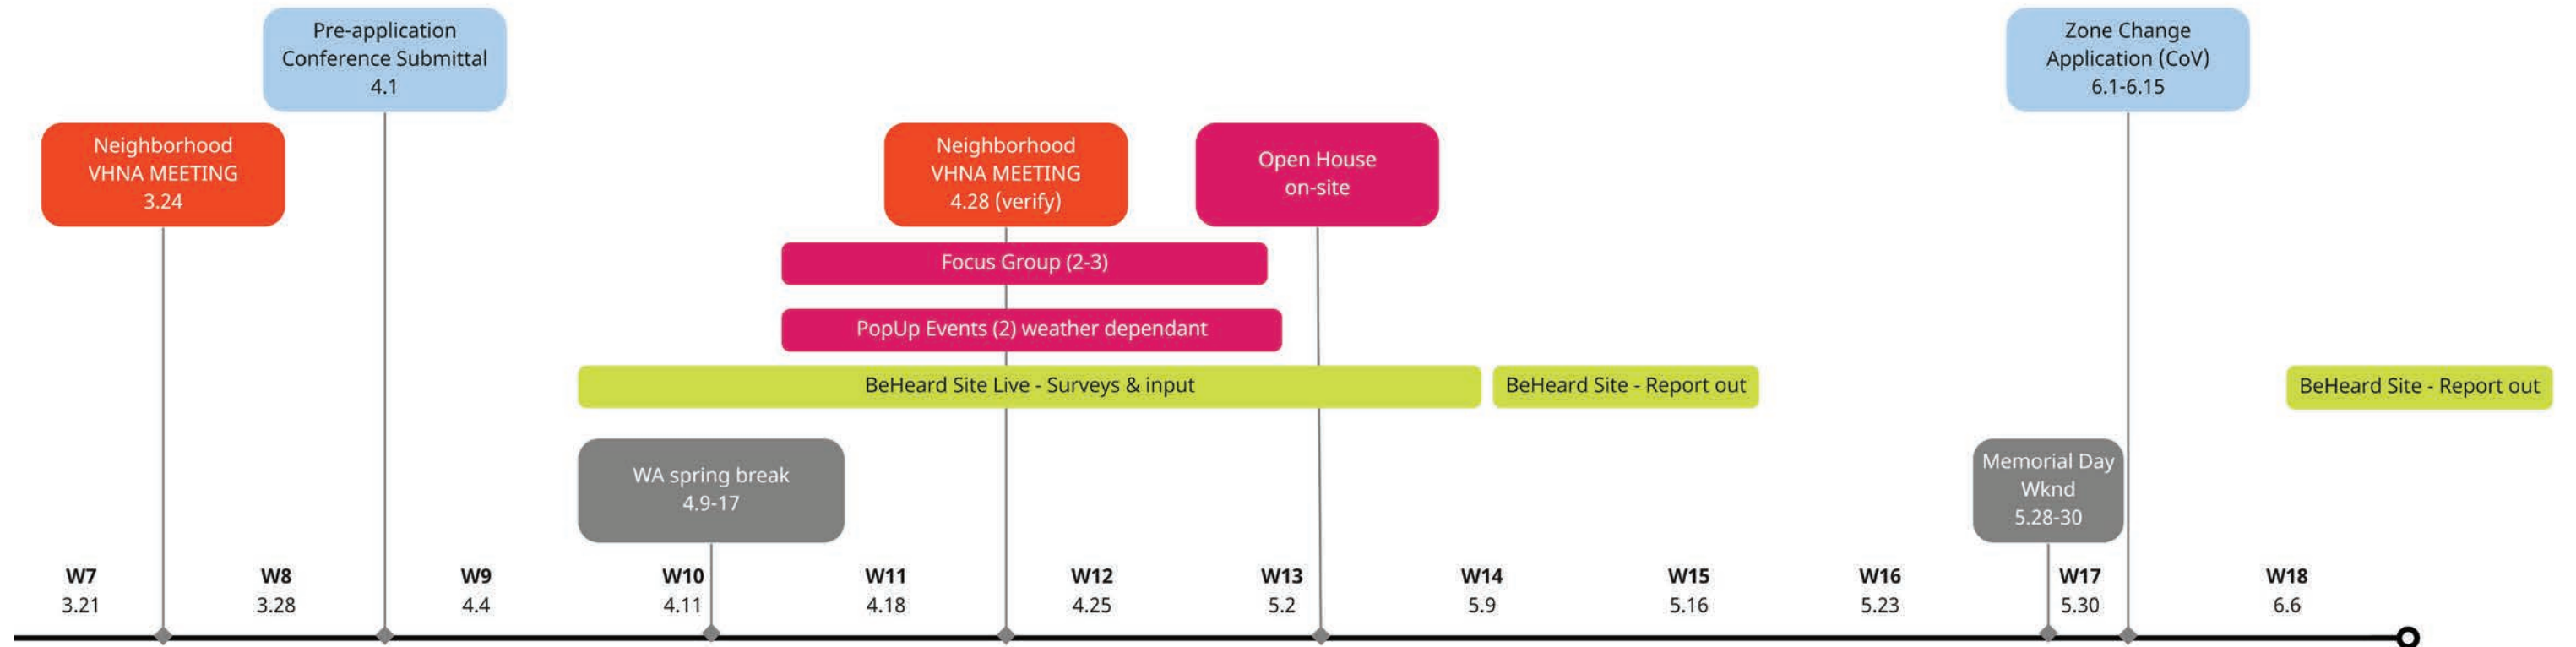

# Community Engagement Plan

- Timeline: now through the end of May
- Goals: Connect with key stakeholders including neighbors and community groups. Provide information and collect input early on to ensure the project is informed by the local community.
- Types of engagement vents: neighborhood meetings, focus groups, pop ups, open house, online engagement.

# Potential CE Discussion Items

- . Park and Playground
- . Pedestrian Connectivity
- . Zoning Changes
- . Building Scale
- . Neighborhood Buffers
- . Traffic and Site Access

# What We've Heard: Opportunities

- . The park and play area will require some redesign, what would the neighborhood like to see here?
- . This area is frequented by dog walkers, how can we consider this use?
- . What other neighborhood amenities would be possible at this site?
- . Community room is a potential component of the fire station.
- . How can this development help provide affordable housing for neighbors in need?
- . How can this development provide services for the community?
- . How can this development be considerate of its current neighbors?

# What We've Heard: Questions/Concerns

- . Existing and future traffic on Lieser
- . How will traffic concerns at the Lieser/MacArthur intersection be addressed?
- . Will there be traffic lights for the fire station?
- . Noise from the proposed fire station
- . Traffic and safety if there are proposed connections to internal neighborhood streets
- . How will the current pedestrian access points be maintained or will they?
- . How will the proposed development fit with zoning?
- . How will do the demolition on the old school building be managed? Concerns with asbestos.
- . What is the timing for the elements of the project?
- . Will the neighborhood be involved and how?
